

TREIF FELIX CE Dicer - CUB100

Description

Dicer made completely in stainless steel with a large 84 x 84 x 240 mm cutting chamber. Products of various kinds and shapes can be accommodated exactly for subsequent processing. The double-stroke mechanism moves the blade twice in each direction, reducing the cutting pressure while increasing cutting length. With Click&Go, conversion to other gridset sizes or their removal for cleaning takes only a matter of seconds.

Details

High maximum capacity: up to 350 kg/h
Cut-off length: min 0,5 - max. 25 mm
Cutting chamber: 84 x 84 x 240 mm
Power consumption: 1 kW
Dimensions and weight: 920 x 615 x H. 980 mm
